

Student Academic Supports

Tiered Instruction:

Multi-tiered approach to efficiently differentiated instruction for all students. This model incorporates increasing rigor in instruction, offering specific, research-based interventions matched to student needs.

FLEX Live

The FLEX live session will be built into each unit of coursework. There will be at least one live online session each unit, depending on the size of the unit or at the teacher's discretion there may be more. Prior to each session, the students are to generate questions they may have in a discussion post shortly before the live session regarding material they covered, and questions they may have.

The FLEX live sessions will be used to reinforce information gathered from previous sections of the unit. The session may:

- a re-teach concept
- target/focus on a specific concept
- answer questions generated from the class

Each session will be a minimum of 15 minutes. If a student cannot make a session, the recording will be sent to the students by the instructor.

Attendance to the connect session is required, either live or by recording.

Tutorial Sessions:

FLEX Academy Virtual Learning Specialist provide weekly scheduled tutorial sessions. Tutorial sessions have defined learning objectives based on student need. Students needing additional support should attend live tutorial sessions or watch recordings weekly. Tutorial hours are listed on your Virtual Learning Specialist's course dashboard.

Instructional Lab:

FLEX Academy Instructional Lab serve as a primary tool for instruction. Students can drop in to receive support in all content areas for "just in time" support and direction.

Hours: Mon/Wed 10AM-11AM
Tue/Thurs 2PM-3PM
